## From the Superintendent

Cindy Vujea  
Superintendent

Welcome to the 2011-2012 school year! It is exciting to be a part of the Lakeshore Public School District where the students will be welcomed back with an improved, innovative learning environment. Innovative learning that helps our students be competitive in the years ahead occurs across our curriculum. The Lakeshore District is fortunate to have a staff dedicated to ensuring students succeed in their endeavors.

Let me highlight, the reason our students are so successful is because we have a staff that shows excellence in providing a 21st century focus on education. One example of this is

**“Innovative learning that helps our students be competitive in the years ahead occurs across the curriculum.”**

witnessed in our arts department. Phil Huff is the Band Director at the middle school. Phil is devoted to teaching music to every child, every day. His

high ethical standards and professionalism have brought him great respect as an educator and

a mentor. Mr. Huff has been able to use these qualities to effectively implement generative techniques in his teaching style that will benefit his students for years to come.

In the world today, math is an essential skill, one that students often find difficult. One of our innovative leaders is Jon Woodard, a *Math & Science Center* teacher at the high school. While Mr. Woodard pushes students with high expectations, he couples creative ideas with technology. He builds a supportive classroom environment that allows students to gain confidence as they gain knowledge and mathematical skills. By coupling theory with creative ideas and technology, he has

ensured that Lakeshore graduates will be competitive in this world.

The district focus this year will be on listening and learning. Although the outcome of the bond campaign was not what we had

hoped, it has provided another opportunity to listen to and learn from the community.

We will emphasize three areas:

- 1. Strong partnerships among staff, students, and parents, and between the district and the community:** The relationship among teachers, staff members, and their students is at the heart of education. Lakeshore Public Schools’ strong partnership with community stakeholders is critical for ongoing success.
- 2. Fiscal responsibility and good stewardship of educational resources:** It is important that our community stakeholders recognize

our commitment to fiscal responsibility and excellence in all that we do.

- 3. Outcomes that ensure our children are competitive locally and globally:** Innovative education occurs in Lakeshore Public Schools every day through technology and cutting edge programs, like *Math & Science Center* and *Underwater Welding* classes. It is a story that we need to tell.

You will hear and see this repeated throughout our district in the coming year. Innovative teaching and active learning occurs every day and it shows through the important work completed by our graduates.

I am excited to start this school year with the commitment to listen, learn, and continually work to improve the education of our students at Lakeshore Public Schools. I am excited to work with our parents and community partners to make this a year of outstanding achievements and ideas!

Very sincerely,  
Cindy Vujea

## Lakeshore Middle School Drop-Off and Pick-Up Procedures

The following is a guide to assist you in the safe and orderly “drop-off” and “pick-up” procedures for Lakeshore Middle School students.

### A.M. Drop-Off Procedure

\* All car traffic enters the East end of the middle school parking lot from John Beers Road. There are two lanes for entering the parking lot at this point.

\* The left lane of traffic gradually merges into the right lane. This merge is complete at the first set of traffic cones. The right lane has now become the “Drop-Off” lane.

\* Students may begin exiting the right side of their vehicle and should remain on the right side of the painted yellow line. This allows students to enter the building safely without crossing traffic.

\* Please continue pulling forward as far and as soon as possible. Vehicles at the rear of the line begin to back up when too much space spans between cars.

\* After your student has exited the vehicle, pull into the left lane of traffic as this is the passing lane to exit the parking lot. Please be alert for any pedestrians in the crosswalks.

\* All car traffic exits back onto John Beers Road via the West end of the parking lot. Right and left turn lanes are marked.

### A.M. Park and Drop-Off Procedure

\* If you wish to park the vehicle and drop off your student, enter the East end of the parking lot using the left lane as described above. Don’t merge into the right lane but continue left into the parking area and stop in any available parking spot.

\* For their safety, students must cross at one of the two pedestrian crosswalks.

\* Exit the parking area and lot using the passing lane as described above.

### P.M. Pick-Up Procedure

\* All car traffic enters the East end of the middle school parking lot from John Beers Road. There are two lanes for entering the parking lot at this point.

\* The left lane of traffic gradually merges into the right lane. This merge is complete at the first set of traffic cones. The right lane has now become the “Pick-Up” lane.

\* Students will remain on the sidewalk next to the school building until their ride has been spotted in the parking area and/or waits in the “Pick-Up” lane. Students may walk to their vehicle using the designated crosswalk areas.

\* Please continue pulling forward as far and as soon as possible. *Vehicles at the rear of line begin to back up when too much space spans between cars.*

\* After your student has entered the vehicle, pull into the left lane of traffic as this is the passing lane to exit the parking lot. Please be alert for any pedestrians in the crosswalks.

\* All car traffic exits back onto John Beers Road via the West end of the parking lot. Right and left turn lanes are marked. Personal vehicles are not allowed in the parking lot at the front of the middle school building during these times as space is reserved for bus traffic only.

With your cooperation, patience, and attention to these procedures, the process for getting your student to school in a safe and timely manner will go smoothly.

*Thank you for your cooperation,  
The Lakeshore Middle School Staff*

**Freshman Orientation & 10th-12th New Student Orientation**

Lakeshore High School will have Freshman Orientation on August 30, from 7:00 to 8:30 P.M. Freshman will meet in the auditorium and have an opportunity to meet Lakeshore High School staff, tour the building, and will participate in a mini-class schedule. Students will also be informed of activities and clubs that are available at the high school. Lunch procedures, locker combinations, and other miscellaneous information will be shared.

**10th, 11th, and 12th grade students** that are new to the high school are also invited on August 30, from 7:00 to 8:30 P.M. New 10th, 11th, and 12th graders will meet in the Large Group Instruction Room (next to the auditorium) and will tour the building, meet staff, and be informed of activities and daily procedures. This is a good way to network and meet other students before the first day of classes.

## Advisory To All Parents

Lakeshore Public Schools has adopted an Integrated Pest Management program. Inherent with this are the District's efforts to reduce pesticide use as much as possible. While it may occasionally be necessary to apply a pesticide, these will only be used as a last resort. This program does not rely on routine pesticide applications to resolve problems. We use various techniques such as habitat alteration, sanitation, mechanical means, exclusion, etc. to prevent pest from becoming a problem.

You will receive advanced notice of the application of a pesticide, other than bait or gel formulations at your child's school. This advance notice of the application will be given 48 hours before the application. The law requires us to do this notification by using two methods. The first method required by the law is the posting at entrances to your child's school. The entrances that will be posted are the primary entrances to the building from the parking lot(s). The second method we are going to use is the posting in a common area located by the main office of the school. Parents are also entitled to receive this notice by first class United States mail postmarked at least three days before the application.

If you would like to be notified by mail please contact the Business Office at the (269) 428-1400. Please give the Business Office secretary your name, mailing address, and what school your child attends.

In an emergency (for example, bees nest), pesticides may be applied without prior notice, but if you desire you will be provided notice following any such application.

You may review our IPM program or pesticide application records for your child's school by calling or e-mailing Nick White, the District's Director of Operation and Maintenance, at phone number (269) 428-1400 or
