Notes From the Nurse

The flu season is upon us and I would like to strongly recommend that you and your family members all get the flu vaccine. We know that the vaccine will not be 100% protective, but even if you would contract the flu, it would be a much less severe case then if you had not received the vaccine. It is especially important for the band students as we find ourselves in very close proximity. By getting the flu vaccine, you are not only protecting yourself, you are also protecting those around you. There are some people that cannot get the flu vaccine because of a particular medical condition. Please be proactive and protect yourself, your family and your friends.

As we prepare for the trip to Hawaii, please make sure that you let me know if there have been any changes in your child’s health or your health, if you are going as a chaperone. It is also very important that you let me know if you have had any changes in your health insurance coverage. I am not anticipating needing to visit an emergency room or an urgent care center while we are gone, but there is always that possibility and I want to be totally prepared if the need should arise.

As always, feel free to contact me if you have any questions or concerns. You can contact me at 269-429-5328 or e-mail me at shayes1314@juno.com.

Thanks,
Sandy Hayes, RN, MSN, Lakeshore Band Nurse
